

The Red River Valley School Division Board of Trustees believes that accurate attendance is important for student safety and to ensure student success.

Elementary School Students (Kindergarten to Grade 8)

The Red River Valley School Division requires that morning and afternoon attendance be recorded and reported.

High School Students (Grade 9 to Grade 12)

All students must fulfill all school requirements to be eligible for course credits. The Red River Valley School Division requires schools to record and report daily attendance for each course in which a student is registered.

Schools will ensure attendance is recorded in PowerSchool SIS.

Individual student attendance improvement plans will be implemented where necessary.

Student improvement plans will necessitate collaboration between principals, teachers, parents/legal guardians and students and, if required, the division truancy officer.
