

Red River Valley School Division

Class Size Reporting

November 16, 2026

Starting in the 2024-2025 school year, school divisions are required to report on class sizes for K to 8.

In this report you will find:

1. The letter detailing the requirements of the K to 8 class size report from Manitoba Education and Early Childhood Learning. (MEECL)
2. The required template for reporting from MEECL. (Note this report is composed of school class size averages and divisional class size averages.)
3. The actual class size for every class, in every K to 8 school, in RRVSD.

Note: RRVSD has an average class size of 18.04 students in a total of 92 K-8 classes for the 25/26 school year.

To: Superintendents of School Divisions
Board Chairs

Dear Colleagues:

Manitoba Education and Early Childhood Learning is continuing its support for the Smaller Class Sizes Initiative, focusing on reducing class sizes for our youngest learners. For the 2026/27 school year, $3 million has been allocated to this initiative, ensuring that more K-3 students receive enhanced support from classroom educators.

The department is asking school divisions to report on average class sizes for grades K-8 for the 2026/27 school year. Below are the key reporting requirements:

- **Reporting Template**: Use the attached reporting template to report average class sizes for grades K-8. Please submit this report to the department via email by November 30 to this address: EASadministration@gov.mb.ca.
- **Public Posting**: The report submitted to the department must also be posted on the school division website for public viewing by November 30. As before, divisions may provide additional context to help the public interpret the report.
- **Class Sizes Requiring Additional Information**: For schools with average class sizes that are over 20 for K-3 and 25 for grades 4-8, divisions must include details in the Reporting Template on any additional supports being provided to those classes (for example, additional educational assistants, rotational or specialized teachers, etc.)
- **Annual Report**: The division's annual report should include the information shared with the department. However, the division may present the information in a different format to align with the design and look-and-feel of the report.

With your active participation and cooperation, we are confident that this initiative will lead to enhanced in-class interactions between students and educators.

If you have any questions, please contact Education Administration Services at EASadministration@gov.mb.ca. Thank you for your continued dedication to our students' success.

Sincerely,

Jeffrey Kehler
Assistant Deputy Minister

Smaller Class Sizes Reporting Template

Notes:

Average Class Size: For each grade level, include both regular and blended classes in calculating the average class size. Blended classes should be calculated in the average for their lowest grade. For example, for Grade 1, if you have 1 regular class and 1 blended class (mix of Grade 1 and Grade 2 students), include both as Grade 1 classes while calculating the average. Do not include the Grade 2 students in that blended class again while calculating the average class size for Grade 2 (no double counting).
